

Marine Science Day

Please send in a one page Essay on why your school should be selected for our grant Re-imbusement program.

Your essay should include your students input on what they experienced and learned at Marine Science Day. Did the day change their outlook on Long Island Sound and Marine Science?

Send in your essay with a copy of your bus invoice and registration costs. If your school is selected the Long Island Sound Foundation will pay half your bus cost and the total registration cost for your students. Please staple all the information together.
